

## Shital Prajapati

B.E. | University of Mumbai

Final Year, Computer Engineering

Contact: +91 9004071684

Email: [shital.prajapati919@gmail.com](mailto:shital.prajapati919@gmail.com)

## Education

B.E., Computer Engineering

Saraswati College of Engineering (2022-2026)

CGPA: 9.1/10

Intermediate

Mahatma School of Academics (2022)

Percentage: 84.83

Matriculation

St. Agrasen High School (2020)

Percentage: 93.80

## Skills

**Programming Languages:** Java, JavaScript, Python, C, C++

**Technologies & Frameworks:** Spring Boot, MERN Stack, React.js, JDBC, HTML, CSS

**Databases:** MySQL, MongoDB, PostgreSQL

**Tools:** Git, GitHub, Eclipse IDE, Postman

**Core Competencies:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Algorithmic & Analytical Thinking

## Certifications

MERN Stack Development (August 2024)

Python Programming (August 2024)

Full Stack Web Development (May 2024)

Fundamentals of Cyber Security (March 2024)

## Experience

DEC 2024 – JAN 2025 NM Infocom

Web Developer Intern

- Developed and maintained responsive web applications using HTML, CSS, JavaScript, React, PHP and modern frameworks.
- Implemented security best practices, including input validation, authentication, and authorization, to safeguard API endpoints.

JULY 2024 – AUG 2024 Webstack Academy

MERN Stack Developer Intern

- Designed and developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js, collaborating effectively with backend and frontend teams.
- Ensured code quality and performance optimization, working with databases and RESTful APIs.

## Projects

Geofencing-based MR Reporting App

Full-Stack Web & Mobile Integration

Tech Stack: React.js, MySQL, Android Jetpack Compose, Google Play Location Services

- Built admin web dashboard for real-time MR attendance and activity monitoring, integrated backend APIs.
- Implemented geofencing to verify MR check-ins, improving accuracy of attendance reporting.

Smart Agriculture System

AI/ML & Web Platform

Tech Stack: Python, OpenAI, Random Forest, Decision Tree Classifier, ResNet-9, Google Translate

- Implemented AI/ML models for crop/fertilizer recommendations, disease detection, and yield prediction.
- Developed farmer, customer, and admin web portals with multilingual support and AI chat assistant.

Intelligent Multi-Agent Customer Support System

AI and Automation

Tech Stack: Python, FastAPI, Streamlit, OpenAI GPT-4, Google Gemini 2.0-flash

- Designed multi-agent AI system with orchestrator and specialist agents for customer service automation.
- Built backend with async execution modes and Streamlit chat interface with live agent visualization.

## Extra-Curricular Activities

Core Member, Coding Club (SCOE)

Organized hackathons, workshops, seminars, and coding lessons; delivered technical presentations to students.

Competitions & Technical Engagement

Participated in hackathons, technical competitions, tech talks and debates.
